## Light PMDF, FJ Pine, Knotty Alder, Solid Pine, & TruFlex

Base .....	2 - 5
Bullnose & Squares .....	14 - 15
Casing .....	6 - 10
Chair Rails .....	12
Crown .....	11
Corners .....	13
Coves .....	14
Handrails .....	12
Miscellaneous .....	16 - 18
Rounds .....	13

## Hardwoods

### Cherry, Maple, Oak, & Alder

Base .....	19
Brickmould .....	21
Casing .....	20 - 21

## Components

### Jambs, Frame & Accessories

Composite Jambs .....	22
Hardwoods .....	25
Kerfed & Non-Kerfed Exterior Frames .....	26
MDF, FJ Pine, Knotty Alder, & Solid Pine ...	23
Soft Corners & Accessories .....	27
Special Order Hardwood Jambs, Frames & Accessories .....	24

## Care and handling of Millwork

**Unfinished woodwork is vulnerable! Apply finish as soon as possible following the manufacture unfinished instructions.**

**Never expose unfinished millwork to direct sunlight!**

**Always protect unfinished millwork from moist conditions. Never store on the ground, on concrete, or where rain can blow in.**

**All Mouldings should be stored horizontally off the floor and in a dry location**

It's critical to protect millwork from direct sunlight prior to finishing to avoid rapid drying and bleaching. Even a few hours exposure to direct sunlight causes drying and bleaching. Millwork must be stored in a dry area away from excess heat. Never store on the ground, nor allow wood to come into direct contact with concrete. The natural tendency of concrete to absorb moisture can create a "wicking" of moisture out of the air or the ground and into the wood.

### **Mouldings must be acclimated**

72 hours prior to installation, Mouldings should be unbundled and allowed to acclimate to the environment in the room in which they will be installed, with a controlled humidity level. The humidity at time of acclimation should be similar to the humidity expected upon occupancy of project.

### **Finishing**

Light sanding is required prior to finishing. Follow manufactures recommended instructions for your product type.
